

ANNAMDEVULA DURGA PRASAD

Location: Rajahmundry, India

Email: durgaprasadannamdevula973@gmail.com

Mobile: +91 9618762533

Proactive and goal-oriented professional with excellent time management and problem-solving skills. Recognized for reliability and adaptability, with a swift capacity to learn and apply new skills. Committed to leveraging these qualities to drive team success and contribute to organizational growth.

Professional Experience (Internships)

Foundations of Artificial Intelligence

Microsoft Initiative Implemented April 2025 - May 2025 by Edunet Foundation

- Used critical thinking to break down problems, evaluate solutions and make decisions.
- Managed time efficiently in order to complete all tasks within deadlines.
- Used strong analytical and problem-solving skills to develop effective solutions for challenging situations.

Artificial Intelligence Program

Mindenious December 2024 - February 2025

- Demonstrated respect, friendliness and willingness to help wherever needed.
- Paid attention to detail while completing assignments.
- Passionate about learning and committed to continual improvement.

Project Accomplishments:

Fraud detection in Financial Transactions

We propose a Machine learning model to detect fraudulent credit card activities in online financial transactions. Analyzing fake transactions manually is impracticable due to vast amounts of data and its complexity. However, adequately given informative features, could make it possible using Machine Learning. This hypothesis will be explored in the project. To classify fraudulent and legitimate credit card transaction by supervised learning Algorithm such as Random Forest. To help us to get awareness about the fraudulent and without loss of any financially.

To conclude, we have acquired the result of an accurate value of credit card fraud detection using a random forest algorithm with new enhancements. In comparison to existing modules, this proposed module is applicable for the larger dataset and provides more accurate results. The Random Forest algorithm will provide better performance with many training data, but speed during testing and application will still suffer. Usage of more pre-processing techniques would also assist.

Technical Skills

- Programming essentials in C
- Python
- Basics of java
- Cloud computing
- Mobile application development

Certifications

- Certified in Basics of Python from Infosys
- Certified in Basics of Python essentials from Cisco Networking Academy
- Certified in Computer Network and Internet Security from Infosys
- Certification of Internship in Cloud Computing from KnackTech
- Certificate of completion in Power BI workshop from Office master
- Participated in Data science workshop networks conducted by Mindenious

Educational Qualification

B.C.A (Bachelors in Computer Applications) in Aditya Degree College, Rajahmundry with
8.9 CGPA, April,2026

Intermediate Education in Sasi Junior College, Velivenu, Tanuku with
9.20 CGPA, March,2020

Secondary School Certificate in Bhashyam English Medium Highschool, Mandapeta with
10.0 CGPA, March,2018
